

SOULCENTRO

OUR MEDICAL SAFETY PROTOCOLS:

RECOMMENDED MINIMUM MEDICAL STANDARDS OF CARE FOR
TRADITIONAL IBOGA CEREMONIES & CLINICAL IBOGAINE TREATMENTS

www.SoulCentro.com

PRE-RETREAT SCREENING:

Comprehensive medical and psychiatric questionnaire and one-on-one screening.

Comprehensive safety agreement detailing risks and known side effects of the medicine—as well as guest responsibilities with regards to all contraindicated substances and necessary preparations including medically supervised titration and any required preliminary detoxification.

Comprehensive information provided about the medicine on our website to help support **informed consent**.

We offer preparation and navigation resources in our emails, media, and signature Preparation Workbook provided to all retreat guests **with additional preparation resources also noted on our website:** peer

support groups, coaches, and licensed mental health professionals that specialize in psychedelic medicine support.

PRE-RETREAT / ADVANCE REQUIRED LAB & EKG TESTS INCLUDE:

- 12 lead EKG *confirmed by a cardiologist*
- CBC (complete blood count)
- Electrolytes
- Magnesium
- Calcium
- Hepatic (liver / metabolic panel)
- Renal (kidney panel)

ONSITE MEDICAL TESTS INCLUDE:

- Ongoing 6 lead EKG and Interpretation onsite prior to each ceremony.
- Vitals and Body's Systems assessments are checked onsite prior to each ceremony and are assessed throughout the ceremony.
- Urine toxicology screens as deemed appropriate.

ONSITE SAFETY PROTOCOLS:

AED (Automatic Electronic Defibrillator) is stored and accessible onsite.

MEDICAL FLOW CHART: The time and amount of all Iboga medicine administrations are precisely, along with a detailed **Input** and **Output** chart (all fluids, purging and bathroom eliminations) to regulate electrolyte balance for each guest safely throughout each ceremony and retreat session. This is **also** important when using just root bark by itself.

All medicine is carefully sourced through known sacred relationships and personally tested for quality and purity. No “dark web” medicine or random sources.

QUALIFIED MEDICAL SUPPORT:

>>> **It is imperative to have qualified medical support onsite 24/7 for 72 hours post-ingestion of medicine** because the medicine is active for this time period.

For both screening & onsite support, the medical professional must be **ACLS certified** (Advanced Cardiac Life Support) and have extensive knowledge + experienced with:

- All drug, herbal/supplement, medical, & psychiatric contraindications to Iboga*
- If working with the total alkaloid Iboga, the medical professional must understand the **additional considerations and contraindications for Iboga** that are varied from Ibogaine*
- The Body's Systems: circulatory, respiratory, skeletal, digestive, and nervous

- Psychiatric assessments
- Addiction recovery issues & protocols
- Inclusion and Exclusion Criteria
- Alcohol withdrawal
- Benzodiazepine withdrawal
- Opioid withdrawal
- Stimulant withdrawal
- Serotonin Syndrome
- Critical interventions
- Dosing criteria: different for ibogaine and organic total alkaloid Iboga

** SoulCentro offers a comprehensive professional medical support training for medical professionals that covers current best practices and the drug, herbal/supplement, medical, & psychiatric contraindications to Iboga & Ibogaine. To inquire, email: info@soulcentro.com*

Medical professionals must be able to safely navigate situations including:

- Adverse cardiac events, cardiac dysrhythmias
- Tachycardia, bradycardia
- Use of AED: Automatic Electronic Defibrillator
- Hypotension, hypertension
- Ataxia
- Purging / aspiration
- Falls / injuries
- Psychotic episodes

- Paranoia
- Confusional or delusional states
- Adverse effects including: allergies, hyperemesis state, constipation, changes within cognition and consciousness, altered visual disturbances.

POST RETREAT:

Out-take information provided regarding continuing drug, herb/ supplement, and psychoactive medicine contraindications for the 2 weeks following ceremonies.

We offer our signature Integration Playbook to all retreat guests with additional integration resources also noted on our website: peer support groups, coaches, and licensed mental health professionals that specialize in psychedelic medicine support.

We are always available to our guests for any medical, psychological, or spiritual questions that arise post-retreat.
